

How Many Periods?

Menopause

Estimated age I will stop my periods

01

Menarche

Estimated age I will start my periods or age I started my periods

02

03

Children

Estimated number of children I hope to have

Calculate

For each child I can expect not to have periods for about 18 months (1.5 years). This allows 9 months for pregnancy and 9 months (on average and taking account of breast feeding) before my periods resume.

04

$$\begin{array}{r} \times 1.5 \\ \hline = \square \end{array}$$

Menstruation

Total number of years having periods

05

$$\square - \square - \square = \square$$

Period Total

I can expect to have:

$$\square \times 12.25 = \square$$

Average number of periods per year

in my lifetime
